## PROFESSIONAL SUMMARY

---

Cybersecurity and IT **Solutions Architect** with proven expertise in designing, deploying, and managing enterprise-grade **security infrastructures** using **Kaspersky EDR, Fortinet, Sophos, and Microsoft Azure**. Skilled in **risk assessment, vulnerability management, and policy enforcement** aligned with **ISO 27001, NIST, and SOC 2** standards. Adept at leading **network optimization, incident response, and cloud security** projects that enhance resilience and business continuity.

## PROFESSIONAL EXPERIENCE

---

### Solution Architect | Goinnovior Limited

Jul 2024 – Present

- **Architected tailored cybersecurity solutions** and led **presales engineering** efforts using **Kaspersky, Fortinet, and Sophos**, contributing to a **15% increase in client acquisition** through strategic proposals and technical demonstrations.
- **Architected tailored cybersecurity solutions** and supported presales activities, **contributing to a 15% increase** in solution win rate through proposals and technical demonstrations.
- **Deployed and managed endpoint-security systems**, minimizing malware and zero-day attack risks across managed IT infrastructures.
- **Configured cPanel hosting, mail servers, and Dockerized web applications (React, Node.js)** — resulting in **99.9% uptime** and improved scalability.
- **Administered ERP systems** on Microsoft Azure, optimizing resource allocation and **improving system performance by 30%**, while ensuring high availability and data integrity.
- **Managed Microsoft 365 (Exchange, SharePoint, Intune, Defender)** environments, strengthening collaboration and governance.
- **Delivered full-cycle cybersecurity and IT services** aligned with business continuity and regulatory standards, driving secure and efficient operations with **96% customer satisfaction**.

### Cybersecurity & Networking Trainer | Skill Jobs

Nov 2024 – Present

- Conducted **Cybersecurity & Networking training programs** under the i2i initiative, mentoring **100+ learners** with an **90% course completion rate** and **60 % successful job placements** in IT & Cybersecurity roles.

### Cybersecurity Architect Intern | Skylark Soft Limited

Jan 2023 – May 2023

- **Implemented cybersecurity frameworks** and policies as Team Lead, elevating organizational defense posture and compliance maturity.
- **Engaged in a Government-sponsored Cybersecurity Program (IIT & EDGE)** to strengthen expertise in **threat intelligence, incident response, and digital forensics**.

## EDUCATION

---

### B.Sc in ICE (Information & Communication Engineering)

2023

Daffodil International University.

### H.S.C - Science

2019

Mirpur Cant. Public School & College.

## TECHNICAL SKILLS & TOOLS

---

**Cybersecurity & Network Security:** Kaspersky EDR/XDR Administration, Wazuh SIEM, Sophos & Fortinet Firewall, Mikrotik, Grandstream, Threat Detection, Incident Response, Vulnerability Assessment, Malware Analysis, Threat Hunting, Security Policy Implementation.

**Cloud & Infrastructure Management:** Microsoft 365 (Admin Portal, Exchange, Intune, Defender, SharePoint, Sentinel, Azure, Lighthouse), Cloud Security, System Integration, Network Administration.

**Frameworks & Compliance:** ISO 27001, NIST, SOC 2, GDPR, Risk Assessment, SIEM, IAM, DLP, Network Hardening.

**Automation & Scripting:** Security Process Automation, Troubleshooting, Performance Optimization.

**Server & Hosting:** Web Hosting – cPanel, WHM, Mail & DNS Server Management, ERP Maintenance, Azure Application Hosting.

**Networking:** VLAN, VPN, Routing, Switching, Firewall Configuration, AP Configuration, Wi-Fi Security.

**Productivity Tools:** Microsoft Office Suite (Word, Excel, PowerPoint, Outlook), Power Tools, Microsoft Lists, Planner, Teams.

## CERTIFICATIONS

---

<b>Google Cybersecurity Professional Certificate</b> – Google	2022-2023
<b>Cybersecurity Training Program</b> – ICT Division & IIT (Dhaka University)	2023
<b>Network &amp; Server Administration</b> – SkillJobs	2023
<b>Database Structures and Management with MySQL</b> – Meta	2025
<b>Crash Course on Python</b> – Google	2025
<b>Connect and Protect: Networks and Network Security</b> – Google	2025
<b>Google IT Support Professional Certificate</b> – Google	2023-2024
<b>KATA &amp; EDR Expert (S25.7)</b> – Kaspersky	2025
<b>IT Security: Defense against the digital dark arts</b> – Google	2025
<b>Next EDR Lineup Administration (047.12.6)</b> – Kaspersky	2025
<b>Operating Systems and You: Becoming a Power User</b> – Google	2025
<b>Security for Mail Server (S36.2)</b> – Kaspersky	2025
<b>OPSWAT Cybersecurity Fundamentals Associate</b> – OPSWAT	2024

## PROJECTS & PUBLICATIONS

---

**Malware Detection Using Machine Learning and Deep Learning:** Developed an advanced project focusing on detecting malware and malicious website links using machine learning and deep learning techniques.

**Publication:** Co-Author of "Cybersecurity Compliances" (Collaboration with Industry expert Mr. Kahafil Ora)
